

# Web-based Security Awareness Training

**People.** Your most valuable corporate asset -- and your single biggest security risk. It's not that your employees don't care; but often they don't know, remember or think about security. The answer is Security Mentor's innovative training, designed for the way people learn and work.

Security Mentor security awareness training combines accurate, relevant security content with top-notch instructional design and superb graphics and animation.

## THE SECURITY MENTOR TRAINING MODEL

- ▶ **BRIEF**  
10 minute lessons  
fit busy schedules
- ▶ **FREQUENT**  
Monthly lessons  
keep security top of mind
- ▶ **FOCUSED**  
Single-topic lessons are  
easy to learn and remember

## THE SECURITY MENTOR DIFFERENCE

**ENGAGING** Rich media captures attention

**INTERACTIVE** Trainees learn by doing

**MEMORABLE** Compelling games and real-world scenarios

**RELEVANT** Created by certified IT security pros

**FLEXIBLE** Online training anytime, anywhere

### Security Mentor Training Platform Features

Our Training Platform is designed to engage trainees, increase training effectiveness, and reduce the burden on security staff.

- 🎧 Brief, interactive, highly engaging lessons teach critical security skills in an easy-to-understand, fun format that drives real behavior change.
- 🎧 Training is delivered as a cloud-based service with optional SSO, or as SCORM-compliant modules.
- 🎧 Administrative dashboard and reporting tools make managing and tracking training simple.
- 🎧 Pre/post training assessments and end-of-lesson quizzes measure training effectiveness.
- 🎧 The PhishDefense phishing simulation service enables organizations to safely phish their staff, track employee behavior, and direct vulnerable employees to real-time, targeted training.
- 🎧 Policy Management & Tracking service facilitates improved security policy compliance.
- 🎧 Gamification rewards employees for accomplishments and encourages friendly competition.
